enatel

Position Description

Position: Technician

Department: Manufacturing

Reports to: Production Team Leader

Direct Reports: None

Position purpose:

The role of a Production Technician is to test, and if production faults are identified, to diagnose and repair the same on all manufactured products and systems.

Key responsibilities:

- Competently testing all Enatel products and systems.
- Ensuring products are built safely and to agreed customer specifications.
- Acting as a technical leader in the Production Department and providing training and support for other technical and assembly staff.
- Diagnosing faults in conjunction with other Technicians.
- Identification of fault trends and reporting changes to management.
- Repairing products and systems as required.
- Reporting on quality data, highlighting areas of concern using pareto analysis.
- Assisting with the production engineering approval process.
- Working with Production Management to ensure technical training programmes are appropriate and incorporate all electrical test and safety elements.
- Working with Production Management to improve training competency processes and training matrices.

Other duties:

- Upholds the company values.
- Perform any other tasks as required by your Team Leader and/or the business.
- Contributes to the achievements of department goals and objectives.

Health & Safety:

- Ensuring all Health & Safety policies and rules are followed, with all tasks completed in a safety conscious manner.
- Maintaining a safe and clean working environment by complying with Enatel Policy and Procedures.
- Leads by example in all matters relating to Health & Safety.

Environmental:

Enatel is committed to minimising the environmental impact of our operations and products.

Ensuring Environmental policies and processes are followed.

Key Relationships:

Internal	External	
Manufacturing	• Customers	
• Engineering		
• Sales

Person Specification:

Functional/Technical Skills - has the functional and technical knowled and skills to do the job at a high level of accomplishment. Drive for Results - can be counted on to exceed goals successfully. Steadfastly pushes self and others for results. Action orientated - enjoys working hard and is full of energy for the things he/she sees as challenging. Customer Focus - Is dedicated to meeting the expectations and requirements of internal and external customers. Establishes and maintains effective relationships with customers and gains their trust a respect. Integrity and Trust - is seen as a direct, truthful individual; is widely trusted. Process Management - good at figuring out the processes necessary get things done. Can simplify complex processes. Learning on the Fly - the ability to learn quickly in a new environment Priority Setting - Spends his/her time and the time of others on what important. Can quickly sense what will help or hinder accomplishing a goal. Eliminates roadblocks and creates focus. Problem Solving - looks for opportunities to resolve issues and solve problems. Learns quickly when facing new problems. Safety-First approach. Technical knowledge of power conversion products AC and DC competent. Previous experience in testing or servicing electronic device and advantage. Train the Trainer skills and experience.
and skills to do the job at a high level of accomplishment. • Drive for Results – can be counted on to exceed goals successfully. Steadfastly pushes self and others for results. • Action orientated – enjoys working hard and is full of energy for the things he/she sees as challenging. • Customer Focus – Is dedicated to meeting the expectations and requirements of internal and external customers. Establishes and maintains effective relationships with customers and gains their trust a respect. • Integrity and Trust – is seen as a direct, truthful individual; is widely trusted. • Process Management – good at figuring out the processes necessary get things done. Can simplify complex processes. • Learning on the Fly – the ability to learn quickly in a new environment • Priority Setting – Spends his/her time and the time of others on what important. Can quickly sense what will help or hinder accomplishing a goal. Eliminates roadblocks and creates focus. • Problem Solving – looks for opportunities to resolve issues and solve problems. Learns quickly when facing new problems. • Safety-First approach. • Technical knowledge of power conversion products AC and DC competent. • Previous experience in testing or servicing telecommunication systems (required) • Ability to de-solder & solder through

Train the Trainer skills and experience.
conversion products AC and DC competent. • Previous experience in testing or servicing telecommunication systems (required) • Ability to de-solder & solder through testing AC and DC current • Previous experience in testin or servicing electronic device and advantage. • Train the Trainer skills and experience.
 competent. Previous experience in testing or servicing telecommunication systems (required) Ability to de-solder & solder through Previous experience in testin or servicing electronic device and advantage. Train the Trainer skills and experience.
 Previous experience in testing or servicing telecommunication systems (required) Ability to de-solder & solder through or servicing electronic device and advantage. Train the Trainer skills and experience.
servicing telecommunication systems (required) • Ability to de-solder & solder through and advantage. • Train the Trainer skills and experience.
(required)Ability to de-solder & solder throughTrain the Trainer skills and experience.
Ability to de-solder & solder through experience.
I note and Sixti Components.
Skills Experience &
Necessary training in the abo
Knowledge understanding schematic diagrams will be provided if needed.
and overlays.
Sound knowledge of electrical theory and anti-static precautions Lean skills, six sigma green o
and anti-static precautions.
• Excellent communications skills –
written, verbal and listening.
Intermediate computer skills
including MS Excel.
Excellent numeracy skills.
Outlification /
• Appropriate electrical certification
• Appropriate electrical certification • EST Training or similar Electronics qualification
