

Position Description

Position:	Jr Service Technician
Department:	Quality
Reports to:	Quality, Safety and Environmental Manager
Direct Reports:	None

Position purpose:

The primary focus of the Junior Service Technician is to manage the RMA (Return Materials Authorisation) and the internal calibration system including associated functions in an accurate and timely manner.

To diagnose and repair Enatel product returned for service, write analysis reports and provide information regarding these failures to Quality Assurance, Engineering and Manufacturing to improve product quality.

Key responsibilities:

- Maintain equipment calibration program.
- Perform calibration inspections as for internal equipment such as torque drivers in use within manufacturing process.
- The failure analysis and service of power conversion products returned from the field
- The upgrade of product for service to current version status
- Provide service reports to Quality Assurance, Engineering, Manufacturing and Sales.
- Administration tasks related to servicing.
- Meeting service turnaround times
- Assist Implementing and maintaining anti-static measures in manufacturing.
- Manage reworks on components from RMAs, supplier issue and as required.

Return Material Authorisation Processing

- Responding to customers' requests for product servicing and warranty information
- Formally issuing of Return Materials Authorisations (RMAs)
- Management of RMAs through Enatel from receipt to shipping
- RMA Acknowledgments

Customer Service

- Responding to all customer queries within 24 hours of receipt

Required skills:

- Strong technical knowledge of Enatel power conversion modules
- Ability to de-solder & solder through hole and SMT components
- Read and understand schematic diagrams and overlays
- Sound knowledge of electrical theory and anti-static precautions
- Experience using Microsoft Excel and Word
- Proficient in English, both oral and written
- Excellent problem-solving skills
- Ability to work both in a team and independently
- Positive attitude

Qualifications:

- Tertiary qualification in Electrotechnology or partial qualification in Electrical Engineering
- Technical knowledge of power conversion products
- Previous experience in testing or servicing electronic devices

Health & Safety

- Ensuring all Health & Safety policies and rules are followed, with all tasks completed in a safety conscious manner
- Adhere to all health and safety policies whether at our Christchurch premises or elsewhere

Environmental

Enatel is committed to minimising the environmental impact of our operations and products.

- Ensuring Environmental policies and processes are followed

General:

- Upholds the company values.
- Perform any other tasks as required by your Team Leader and/or the business.
- Contributes to the achievements of department goals and objectives.

Key Relationships:
